PROFESSIONAL SUMMARY

Junior Software Developer with hands-on experience in backend development using Node.js and PHP. Skilled in live production-ready systems, RESTful APIs, secure authentication, and database management. Familiar with React.js for frontend collaboration. Seeking an Associate Software Engineer role to contribute strong backend and problem-solving skills to scalable software solutions.

TECHNICAL SKILLS

- Programming Languages: Java, Python, JavaScript, PHP; strong OOP fundamentals
 - Frontend Technologies: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap
 - Backend & Databases: Node.js, PHP; MySQL, Microsoft SQL Server, MongoDB; authentication, API design, database architecture
 - Development Tools: Git, Postman (version control, API testing)
-

WORK EXPERIENCE

Junior Software Developer

2024 Dec - Present

SUN-TWS TVS Group

- Engineered and deployed a production-ready Live Production Dashboard enabling real-time monitoring of hourly production targets versus actual output, utilizing JavaScript, PHP, CSS, JavaScript, Html and Microsoft SQL Server.
 - Designed and implemented a real-time Kanban System to track Work in Progress (WIP), display upcoming production schedules, and flag machine statuses with delay reasons, enhancing operational visibility and decision-making.
 - Developed a barcode-based Scanning System for Finished Goods Store (FGS), automating inventory tracking and ensuring seamless storage of real-time production data into Microsoft SQL Server.
 - Created a Product Matching System with scan-based verification to validate correct materials prior to production, effectively eliminating material mismatches and reducing production errors.
 - Managed API integrations, performed database schema updates, resolved bugs, and refactored code for improved performance and maintainability; actively utilized Git for branching, commits, and merges to support collaborative development.
-

PROJECTS

- E-Commerce Platform – Personal Project - Full Stack | React.js, Node.js, MongoDB | REST API

Developed a robust backend system with secure authentication, product management, shopping cart functionality, and order processing workflows.

Designed and implemented RESTful APIs for critical features including price calculations and order lifecycle management. Created a stylish and responsive user interface using Tailwind CSS.

- Personal Portfolio - Frontend | React.js

Developed a modern and responsive personal portfolio website using React.js, styled with Tailwind CSS to showcase my projects and skills.

- Travel Booking Website – Personal Project - Frontend | HTML5, CSS3, JavaScript

Built a dynamic travel company website showcasing tourist destinations and enabling seamless vehicle booking functionality through a clean, user-centric interface.

- SLPL Auctioning Website – Final Year University Project - Full Stack | PHP, HTML5, CSS3, JavaScript, MySQL

Collaborated within an 8-member team to develop a comprehensive auction platform enabling user registration, personalized dashboards, auction registration, and bid history tracking.

Engineered backend functionality, database architecture, and frontend dashboards, incorporating features for team and player registration.

Integrated all system components with maintainable, scalable code, ensuring seamless collaboration and successful project delivery.

- E-Commerce Platform (Clothing Store) – Personal Project - Frontend | HTML5, CSS3, JavaScript

Designed and deployed a fully responsive online clothing store featuring interactive product displays, intuitive navigation, and an engaging user interface optimized for various screen sizes.

EDUCATION

University of Ruhuna - Bachelor of Science | 2020 - 2023

- Relevant coursework: Applied Mathematics, Mathematics, Computer Science.
- Strong foundation in analytical thinking, problem-solving, and computational concepts.

Mahinda College Galle | 2002 - 2017

- GCE Advanced Level – Science Stream - 2018.
- GCE Ordinary Level - 2013

CERTIFICATES

- Certified as a Web Designer from University of Moratuwa
- Certified as a Front-end Web Developer from University of Moratuwa
- Certified as a UI/UX Designer from Great Learning Academy
- Certified as a Front-end Developer from Great Learning Academy
- Certified as a PHP Developer from Great Learning Academy
- Certified as a React JS from Great Learning Academy
- Certified as a Operators in MYSQL from Great Learning Academy

PERSONAL SKILLS

- Problem-Solving & Analytical Thinking: Able to analyze complex problems and design efficient backend solutions, reinforced through projects and practical coding experience.
- Teamwork & Collaboration: Experienced in cross-functional teams, mentoring students, and coordinating with peers on development projects; enhanced by competitive university-level football experience.
- Time Management & Discipline: Balanced professional development, personal projects, and academics.
